9	27.2
10	28.0
11	28.8
12	30.0
13	31.0

Measure your feet preferably in the afternoon or evening as feet often swell during the day due to heat and activity.

How to measure your feet

1. Wear socks before measuring
2. Place blank paper on the hard surface / floor
3. Stand on the paper with your heel against the wall
4. Mark the toe or longest part of your foot on the paper with sharp pencil
5. Repeat the process with the other foot as they may vary in size
6. Use a ruler to measure the length from heel to toe / Longest part of your foot and compare the measurement with our sizing chart

* It might be safest to go for the size up, rather than the size down

* The measurement process is manual and brand does not take any responsibility for incorrect measurement taken by the purchaser
